MozUp Courses

MozUP courses provide local SMEs with a deeper understanding of core topics to advance the overall performance of their business and prepare for the requirements of participating in the LNG sector.

Current course offerings include:

Financial Management Course

This 50-hour course covers essential topics of financial management, including current best practices in financial analysis and planning. Key subjects of the course include financial performance indicators, cash and liquidity management, systems management, human and working capital management, long-term budgeting, preparation and analysis of financial statements, taxation and access to financing.

Legal Literacy and Compliance Course for SMEs

The objective of this 30-hour course is to introduce companies to best practices in the management of labor and contractual relations, key responsibilities of a company's directors and managers and key legal requirements for undertaking commercial activities in Mozambique.

HR Management Course

This 40-hour course covers essential topics in human resources, including various methods and practices to develop an organization's human capital. The course also covers best practices in behavioral management and how to optimize an organization's use of the various talents and characteristics found in its workforce. The key objective of this course is to develop the participants' capacities in human capital management, in order to increase the capacity of their organizations to discover, develop and retain talent and its human capital.
